Prostate Cancer Screening: Make an Informed Choice

When Wednesday, Sept. 30, from 7 to 8 p.m.

Where Watch online. You'll get the link once you register.

Prostate cancer is the second most common cancer in American men. In fact, about 1 man in 9 will be diagnosed with prostate cancer during his lifetime. Even though it's most treatable when caught early, men are often confronted with confusing and conflicting information about the value of prostate cancer screening.

Hear board-certified family medicine physician Kevin Bundy, MD, describe the pros and cons of prostate cancer screening, specifically prostate-specific antigen (PSA) testing, and when you might choose to be screened.
