Innovative Treatments for Painful Hips and Knees

IS THE TERRIBLE PAIN OF ARTHRITIS STARTING TO SLOW YOU DOWN?

Most of us don't give our hips or knees a second thought — until degenerative arthritis, or wear-and-tear arthritis, takes its painful toll and threatens to end our active lifestyle. Luckily, effective treatments are available.

Learn about the latest treatment options from Dr. Brian Blackwood, who has successfully treated more than 2,000 patients with hip and knee problems.

6 to 7 p.m. Latest Treatments for Painful Hips

Learn about the newest approaches for relieving the pain of an arthritic hip — from non-surgical treatments to the latest surgical options such as MAKOplasty® and anterior hip replacement.

7 to 8 p.m. Relieving Arthritis Knee Pain

Hear about both non-surgical and innovative surgical treatments for relieving the pain of wear-and-tear knee arthritis, including MAKOplasty partial knee resurfacing.
