

# DON'T SKIP A BEAT THIS FALL

## FREE HEALTH LECTURE

# Latest treatments for irregular heartbeat

## Atrial fibrillation increases stroke risk 5 times

**When** Tuesday, Oct. 2, from 7 to 8 p.m.

**Where** The Gatehouse at Lionsgate Event Center  
1055 South 112th Street (Hwy 287) in Lafayette

Stroke is the most devastating complication of a serious heart rhythm problem called atrial fibrillation (AFib).

Come hear Dr. Srinivas Iyengar, a board-certified cardiologist who is fellowship trained in cardiovascular medicine and interventional cardiology, describe the causes, types and diagnosis of AFib. Then learn about the latest treatment advances, including WATCHMAN — a new minimally invasive procedure for people with non-valvular AFib.

## BCH First in Boulder County for New WATCHMAN Procedure

*Reduces the risk of stroke from AFib. An alternative to long-term blood thinners.*

**RESERVATIONS REQUIRED:**
