Advances in treating  
macular degeneration

**When** Wednesday, Feb. 27, from 11 a.m. to noon

**Where** Boulder Jewish Community Center, 6007 Oreg Avenue

Age-related macular degeneration (AMD) is a leading cause of vision loss for adults over 60. Its victims live with a large blurry or blind spot at the center of their field of vision, making basic everyday activities — reading, driving, navigating stairs — agonizingly difficult.

Come hear board-certified retinal specialist Dr. Justin Kanoff describe current and future treatment options for two main types of AMD: dry form and wet form.

**RESERVATIONS REQUIRED:**
