Breakthroughs in diagnosing prostate cancer

- When** Thursday, June 9, from 6:30 to 8 p.m.
- Where** Watch online. You'll get the link once you register.
- Speaker** Carolyn Fronczak, MD, of Boulder Medical Center
Stephen Siegel, MD, of Boulder Medical Center

Prostate cancer hits one in nine men living in the U.S. and is the second leading cause of cancer death among American men. Yet when caught early, survival from prostate cancer is nearly 100 percent.

Board-certified urologists Drs. Carolyn Fronczak and Stephen Siegel will answer all of your questions regarding the PSA (prostate-specific antigen) blood test and the newest technologies for assessing prostate cancer risk. Then learn about advancements in prostate biopsies and the genetics of prostate cancer, which help patients and their families make decisions about possible treatments.
